

Application: Deployment and Recovery Winch

- Features:
- Drum driven by open chain coupled to right angle gearbox for light-weight/compact profile
 - Failsafe spring applied, electrically released brake, dynamic braking through heat dissipating resistor bank
 - Chain driven diamond screw level wind synchronized for 15.75 mm EM cable
 - Local operator's console with electro/proportional joystick and E-stop
 - Designed to accommodate Focal Model 180/215 slip ring assembly
 - Surround frame with lift lugs and forklift pockets for ease of transport
 - AISI 316 Stainless Steel construction

- Options:
- Remote Control
 - Depot Level Spares Package

Specifications / Performance	
Line Pull (Bare Drum)	500 lb @ 130 fpm
Line Pull (Full Drum)	375 lbs @ 180 fpm
Winch Drive Motor	3 HP, 1800 RPM w/VFD
Capacity	1,600 ft of 15.75 mm electro-optical cable
Drum Size	24" barrel x 36" flanges x 19.125" wide
Approx. Overall Dimensions	48"L x 44"H x 50"W (approximate)
Approx. Overall Weight	1,250 lbs (without cable)
